Subject
Suspension CE-321

Dear Mr. Rödig,

On 10 October 2024 an email was sent to Shanghai Fengyilong Electronic Co. Ltd., China (hereafter Fengyilong) by our manager System Certification. In this email it was proposed to Fengyilong to cancel the audit of 2024, terminate the current project and reschedule the audit to the first quarter of 2025.

Since your company outsources the production to Fengyilong the abovementioned is also applicable to your company.

Because the audit does not take place this year (2024) we have no other option than to suspend your module D certification for 4 months.

The suspension means that you are not allowed to place instruments on the market with reference 0122 to the CE marking starting as from **23 October 2024** until **23 February 2025**.

The suspension can be lifted through one of the following ways:

- The suspension will be lifted when the new audit has been performed and any (possible) open non-conformities are resolved;
- The suspension will be lifted and automatically turns into a withdrawal of CE-321 if the audit doesn't take place in the first quarter (Q1) of 2025;
- You request for a cancellation of your module D certificate.

According to Annex D item 7 of the directive, NMI shall inform its authorities and ask them to inform the Member States of the EU about its decision.

If you have any questions, please do not hesitate to contact me.

With kind regards,
NMI Certin B.V.
