Subject  
Cancellation of CE-312 and DE-003

Dear Mr. Teperdel,

In the first quarter of 2018 Elster Rometrics S.r.L., Romania applied to NMI for approval of its quality system for conformity assessment of measurement systems for Active Electrical Energy Meters (MI-003) according to conformity assessment procedure module D of the Directive 2014/32/EU.

An initial assessment was performed on 31 July 2018 on the premises of Elster Rometrics S.r.L., Romania to verify compliance of the quality system with the criteria of the directive.

On the basis of this assessment, NMI approved the quality system with Certification CE-312 and DE-003 on 13 June 2019.

On 24 April 2024, you send us an email in which you informed us the factory in Timisoara is closed and therefore no audit can take place at that location.

In reply to the abovementioned, the Certification Board decided to cancel the module D certification with numbers CE-312 and DE-003 of Elster Rometrics S.r.L., Romania. According to Annex D item 7 of the directive, NMI shall inform its authorities and ask them to inform the Member States of the EU about its decision.

As result of this decision and as a result of the expired certificate, it is and was not allowed for Elster Rometrics S.r.L., Romania to place instruments on the market with reference 0122 to the CE marking after 30 April 2024.

If you have any questions, please do not hesitate to contact me.

With kind regards,  
NMI Certin B.V.

Head Certification Board
